"Volunteers contribute 5% of EU GDP annually"

TO WHOM IT MAY CONCERN - Re: Ms Mary Borg

In my capacity as Chairman of the Malta Health Network (MHN) I have known Ms Mary Borg for the past seven years. The MHN brings together a number of health related organizations including patient representative groups, support groups and health professionals organisations. The MHN strives to give patients a voice on Health related issues both on National, European and International levels. MHN works to influence health related policies and practices for the welfare of the community and promote the representation of Health NGOs

Ms Mary Borg joined the MHN as a volunteer seven years ago from the very beginning of MHN's foundation. I had the opportunity to work closely with Ms Borg since she helped out mainly in the administrative department. Ms Borg was ultimately responsible of the Accounts of this MHN and her duties were carried out to our entire satisfaction. Furthermore, Ms Borg has also carried other tasks which included helping out with the Secretary's work whenever this was required of her. She also successfully organized Seminars in Malta taking care of all the logistics required while engaging the top authorities of our country by managing to attract their interest to the different topics. Ms Mary Borg represented MHN both on national and international levels and is presently sitting on the Board of a European Organisation.

Ms Mary Borg carries out diligently the responsibility of managing the projects entrusted to her. She is very dedicated, committed and professional in all the work she does. Ms Borg has a great sense of duty and a marked respect for her superiors and for other persons in authority. She has very good communications skills and is proficient in her computer skills too. She has a cheerful character, a very happy disposition and she gets on very well with her colleagues and with other members of staff. She is also a person who is willing to take initiatives and to shoulder the responsibility of the work she is doing. She does her utmost to keep herself updated with modern trends current National and European policies. Ms Mary Borg was a great asset to the MHN under my responsibility. We will be sorry to lose Ms Borg, but wish her every success in her application for the post for which she has applied, which will further her career.

I have no hesitation in recommending her to any other administrative post. Please do not hesitate to contact me if I can be of further assistance to you.

Yours sincerely,

Anthony E. Guillaumier
Chairman, MHN
